

## BC - BOX LUBRI

### TECHNICAL DETAILS :

CONTAINER FOR THE STORAGE OF LUBRICANTS CERTIFIED BY THE ITALIAN HOME MINISTRY PROT. N° 3737 / 82 DATED 10.04.2003

**BOX CONTAINER:** Robust steel frame with top and bottom angle blocks complete with forklift pocket; walls and roof in corrugated steel plate; double opening front door, complete with seals and locks; vent opening with secondary skids to fix the containment basin, with weight support of circa 800 kg/mq.

Standard painting Blue RAL 5010, or personalized colours available at extra cost.

The internal part can be personalized with shelves, drum-holding structures, electrical systems and additional features according to the customer's specific needs.

**GROUNDING SYSTEM:** The container will be equipped with two couplings for grounding connection, on two opposite corners, to which the containment basin, the access doors and any other device needing grounding are connected.

BC GR 80

BC GR 200/4

### OPTIONAL :

**ELECTRIC INSTALLATION,** including conformity declaration as per L 46/90, including:

- Fluorescent light point 1 x 36W with IP 55 water proof on/off switch;
- Outlet box in water proof IP 55 with external terminal board connection.

**REMOVABLE FOOTBOARD** for easier access to the container.

BC L 16

## BOX LUBRI - BC GR:

Container fitted with containment basin and galvanised grating flooring. With weight support of circa 800 kg/mq.

**OPTIONAL:** Shelves fitted at the bottom or sides of the container, width 50/60 cm, weight support of circa 500 kg/ml for each single shelf.

MODEL	DIMENSIONS (MM)	CAPACITY
BC GR 80	2.200 x 2.430 x h. 2.260	1.200 lt. - 6 drums
BC GR 100	2.430 x 3.000 x h. 2.590	1.600 lt. - 8 drums
BC GR 150	2.430 x 4.500 x h. 2.590	2.400 lt. - 12 drums
BC GR 200	2.430 x 6.050 x h. 2.590	3.200 lt. - 16 drums
BC GR 200/4	2.430 x 6.050 x h. 2.590	3.200 lt. - 16 drums

## BOX LUBRI - BC L:

Container fitted with a containment basin, with a single drum-holding frame on two levels and with foldable extensions at the front to allow un/loading of drums through the container roof, with the use of any type of hoist or lifting equipment. Upper shelving, in galvanised grating metal, for smaller drums up to 500 kg/mq (BC-L 12 excluded). Side galvanised gratings floor, placed at the upper basin side.

MODEL	DIMENSIONS (MM)	CAPACITY
BC L 12	2.200 x 2.430 x h. 2.260	1.200 lt. - 6 drums
BC L 16	2.430 x 3.000 x h. 2.590	1.600 lt. - 8 drums
BC L 24	2.430 x 4.500 x h. 2.590	2.400 lt. - drums
BC L 32	2.430 x 6.050 x h. 2.590	3.200 lt. - 16 drums
BC L 48	2.430 x 6.050 x h. 2.590	4.800 lt. - 24 drums

## BOX LUBRI - BC 2 L:

Container fitted with a containment basin, with a double drum-holding frame on two levels and with foldable extensions at the front to allow un/loading of drums through the container roof, with the use of any type of hoist or lifting equipment.

MODEL	DIMENSIONS (MM)	CAPACITY
BC 2L 12	2.200 x 2.430 x h. 2.260	2.400 lt. - 12 drums
BC 2L 16	2.430 x 3.000 x h. 2.590	3.200 lt. - 16 drums
BC 2L 24	2.430 x 4.500 x h. 2.590	4.800 lt. - 24 drums
BC 2L 64	2.430 x 6.050 x h. 2.590	6.400 - 32 drums
