

TT CADDY EEX

TT CADDY EEX 55

TT CADDY EEX 110

TECHNICAL DATA

TRANSPORTABLE, TROLLEY-TYPE TANK made in polyethylene, in accordance with ADR regulations for the transport of fuel, ideal for refuelling small vehicles and machinery, and ideal to transport and dispense Diesel fuel. The TT CADDY DIESEL has ergonomic grip for safe handling and lifting and puncture proof wheels designed for use on any type of ground. In addition to lightness and handiness, the structure, devoid of sharp edges, and the reinforcement ribs confer great strength and resistance to the unit. The TT CADDY DIESEL can be filled either horizontally or vertically with the same amount of fuel.

The TT CADDY tanks is equipped with:

- Top handle for easy gripping and lifting
- Integrated grooves for tank securing with ratchet straps
- Suction/drain safety ball valve
- Filling plug with integrated non-spill vent
- Lower handle for easier lifting
- Puncture proof wheels and base support.
- Frontal nozzle holder
- Manual and electric pump housing

DC BATTERY PUMP:

DC battery pump, Ex-50 ATEX 12 V, 40 l/min, with 4 m electric cable, clamps for battery connection and automatic nozzle with 3 m antistatic hose.

MANUAL PUMP:

Manual rotary vane pump made in aluminum with manual nozzle and 3 m hose.

OPTIONAL ELEMENTS:

Digital **FLOW METER** model K24 ATEX for gasoline.

Water absorbing **FILTER**.

Impurities absorbing **FILTER**, 60 µ.

Water (60 µ) and impurities (5 µ) separator **FILTER**.
